

THE UNIVERSITY *of* EDINBURGH

Doors Open Day

at the King's Buildings

Max Born Crescent, Edinburgh EH9 3BF

Explore the University's science and engineering campus

Try our hands-on activities

Tour the buildings, and meet our scientists and students

FREE activities for all the family

Saturday 28 September 2019, 10 am – 4 pm

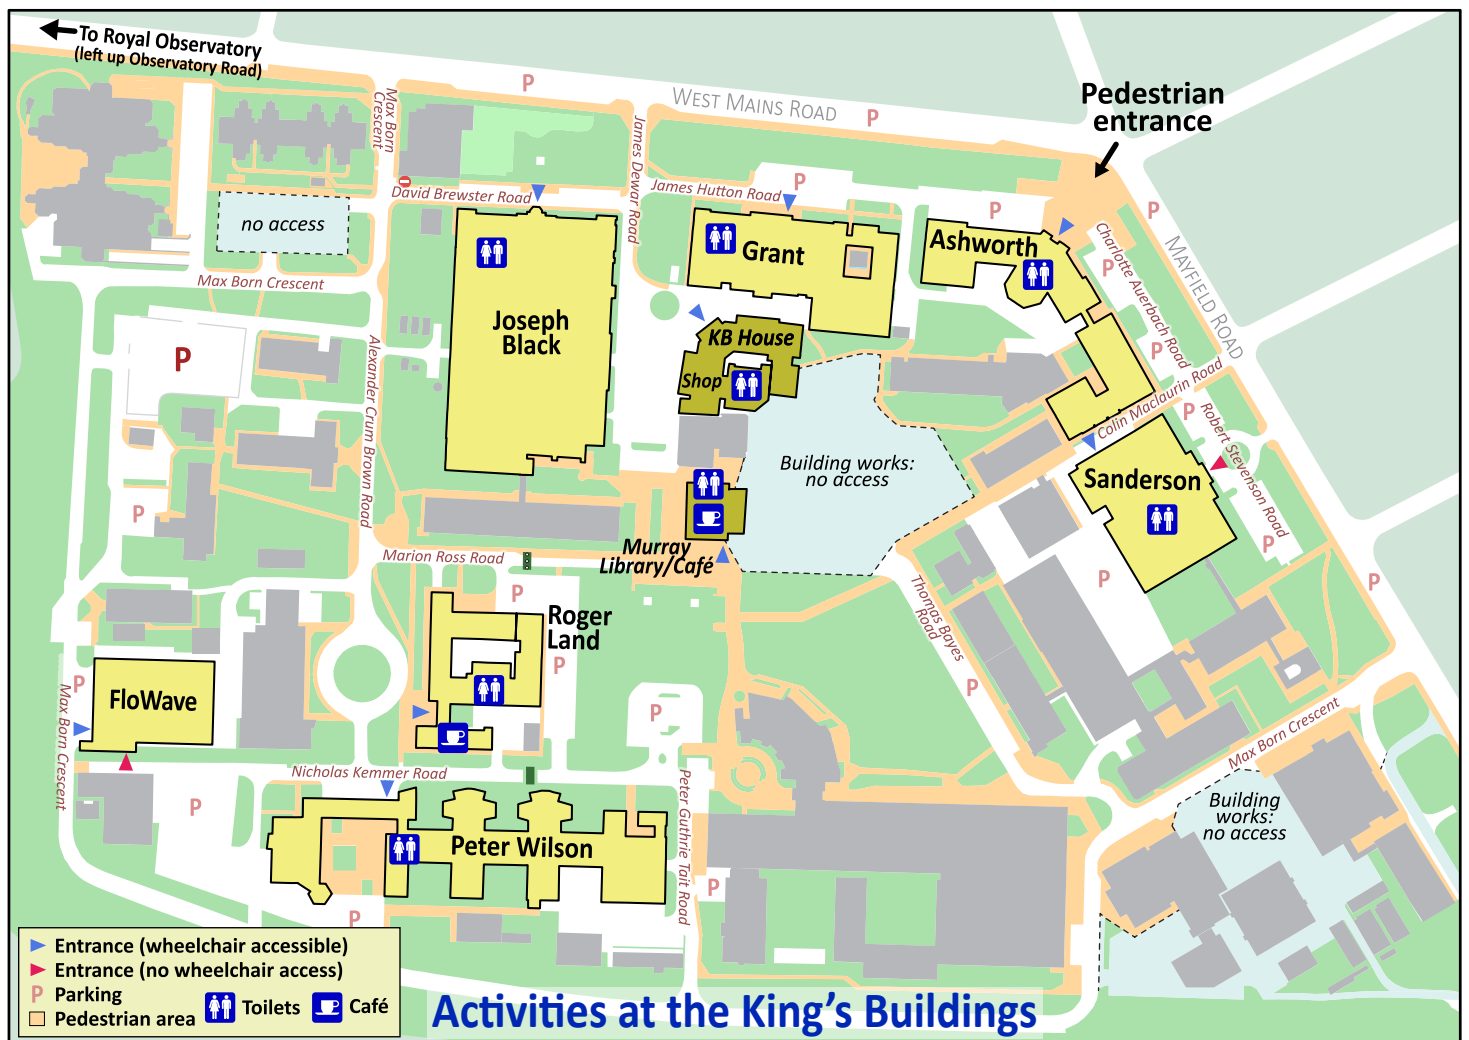

Discover our scientific research through interactive activities

Explore arts and architecture across the campus with our self-guided tour

Take on the Treasure Hunt challenge

Turn over for a map of the King's Buildings campus

www.ed.ac.uk/science-engineering/news-events

Campus architecture

Explore arts and architecture across campus, and follow our self-guided trail with photos and historical references on information panels, bringing our development to life.

Ashworth Building (Biological Sciences)

Explore our National History Collection including dolphin, elephant seal, and anteater samples.

Grant Institute (GeoSciences)

Investigate a variety of Earth Sciences hands-on activities, from fossils to volcanoes and everything in between.

Joseph Black Building (Chemistry)

Visit family drop-in activities exploring chemistry and talk to our researchers. Also, eat ice-cream made using liquid nitrogen!

Sanderson Building (Engineering)

Gain insights into our student research projects and attempt to fly drones on our simulator.

Roger Land Building (Biological Sciences)

Find out more about the latest biological research through hands-on exhibits and information displays.

FloWave Ocean Energy Research Facility (Engineering)

See the unique research test tank in action every half-hour and discover how work here is at the forefront of clean energy research.

Peter Wilson Building (SRUC: Scotland's Rural College)

From farm to fork, how much of the food we produce is lost or wasted? Discover the answers here.
