of EDINBURGH

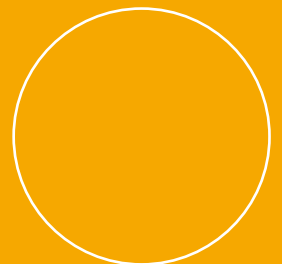

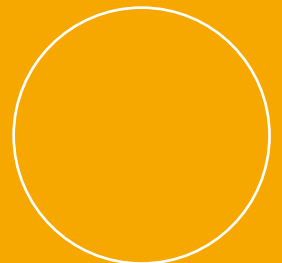

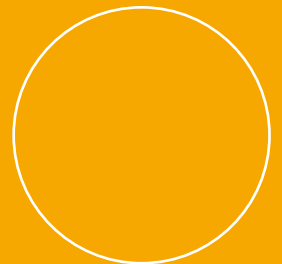

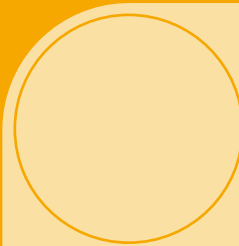

Sensory Map

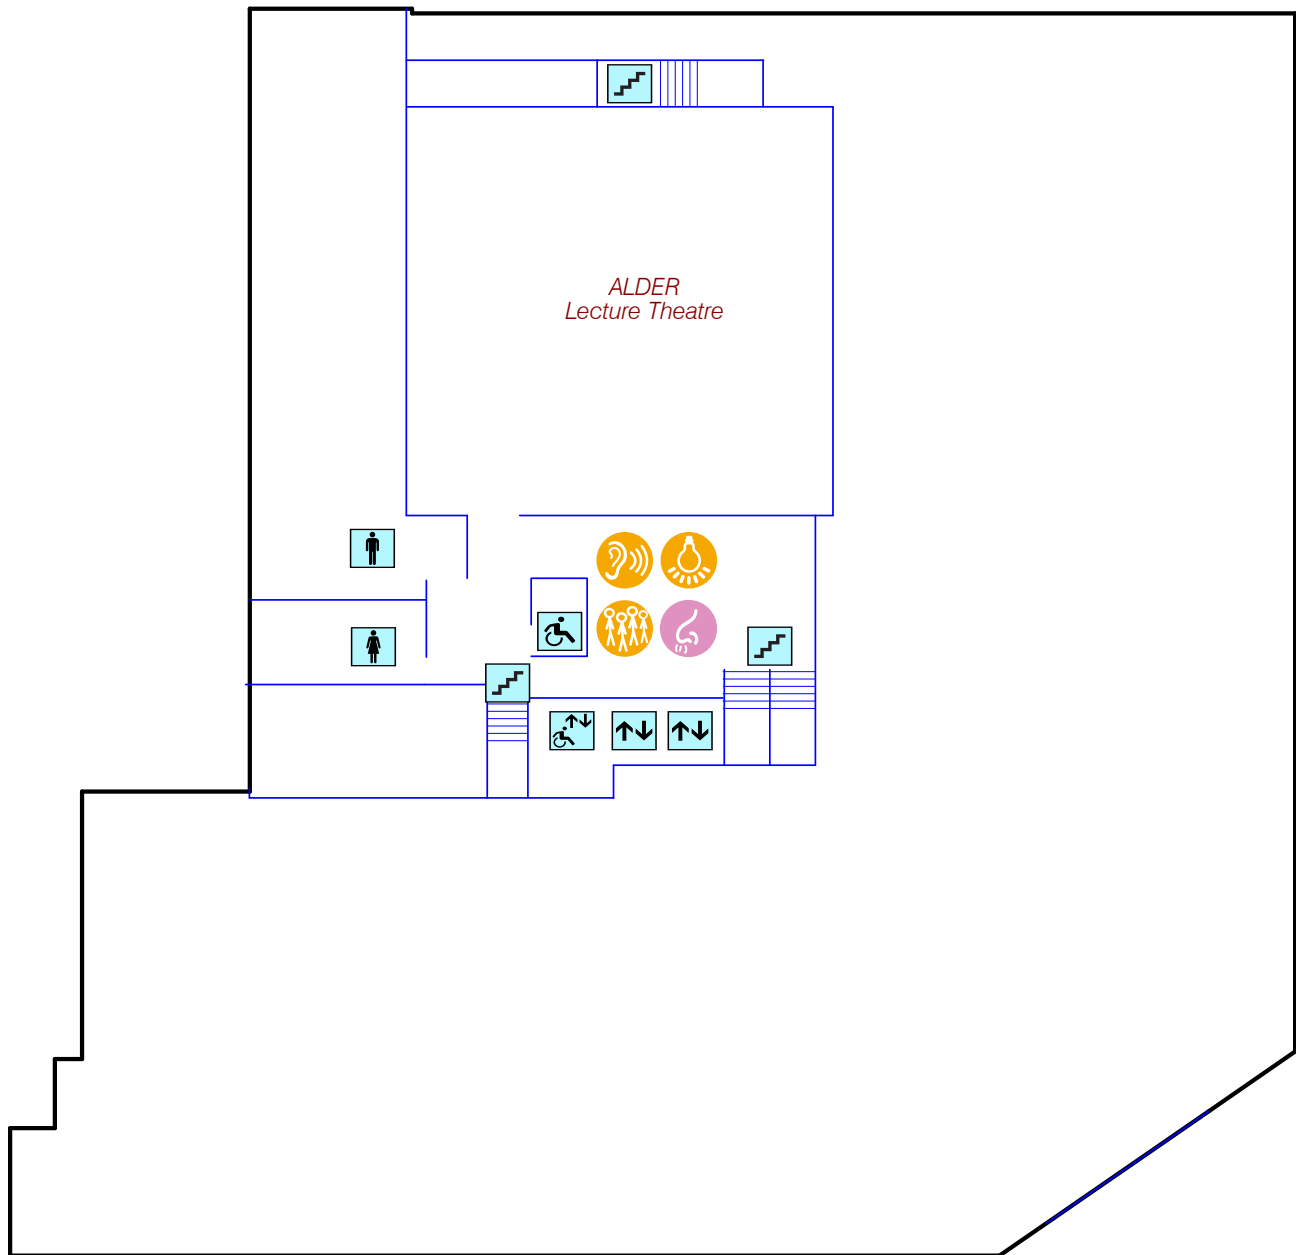

Nucleus Building The King's Buildings

Good to know:

- Activity levels vary from day to day.
- It may be noisy and crowded during teaching or for events.
- The study room on the 3rd floor is quiet, not silent.
- Natural light is available on all floors to the front of the building.
- Overhead lights cannot be turned off.
- There are large, bright TV screens behind the reception desk and opposite the shop.
- Sounds and scents vary throughout; for example:
 - beeping alarms and lift noises;
 - natural, artificial and spot lighting;
 - smells from the café, shop and microwaves.

The Nucleus: LG
